

## Blood Poisoning Started from Wound

An Accident Which Threatened Worst Results.

Until DR. CHASE'S OINTMENT was applied, no wound or hurt but has most serious possibilities unless antiseptic treatment is applied to prevent blood poisoning.

Lives are often saved by having at hand a box of Dr. Chase's Ointment. Its antiseptic properties prevent blood poisoning and it is so remarkably healing that cure is soon brought about.

This case will interest you. Mrs. C. Hopkings, St. George, Ont., writes: "I feel like shouting the praises of Dr. Chase's Ointment. One day last year, while threshing, my son got badly hurt by having the prongs of a fork run into his leg. In a day or two it began to get very sore and blood poisoning set in. We did everything for it but it would heal in one place and break out in another. This kept on for three months, when finally we

got a box of Dr. Chase's Ointment. "In about a week's time we noticed a wonderful change and by using three boxes he was cured completely. He has had no return of the trouble. My husband was cured of a bad case of piles by the use of two boxes of Dr. Chase's Ointment. It is a wonderful ointment."

Dr. Chase's Ointment is useful in sores of every kind. While its great reputation has been made as a cure for eczema and piles there is not a case of itching or irritated skin disease in which it will fail to bring relief.

The better you become acquainted with Dr. Chase's Ointment, the better you will appreciate its wonderful soothing, healing qualities. Any druggist will tell you of its remarkable record for cures.

Dr. Chase's Ointment, 60 cts. a box, all dealers, or Edmanston, Bates & Co., Toronto. Write for free copy of Dr. Chase's recipes.

## THE FUTURE OF AUSTRALIA.

Central Part of the Great Island is Practically Useless.

Anyone who looks at the map of Australia must be struck by the desolation of the great central area of the island. The cities and the railroads constitute the narrow marginal fringe of evidence of civilization, and the rivers which would offer possibilities of irrigation are conspicuous by absence. Through the middle of the map, across the white region marked "unexplored," is a dotted line representing the course of the telegraph wires, that are the sole links of the northern and southern coasts. The country has never been crossed between east and west.

At a recent meeting of the Royal Geographical Society, Prof. J. W. Gregory maintained that no system of irrigation will ever be possible in the practically rainless interior of Australia, except along the banks of the Darling and Murray Rivers. There are few wells in Queensland and New South Wales, but their supply is scanty and inadequate. But in western Australia the discovery of a wide-spread subterranean deposit of fresh water makes it possible to prospect with reason a truly arid and pastoral future for that region.

In Central Australia there will probably never be any considerable settlement, except in the limited area of the mining fields. Recently discovered gold fields in the central portion of the continent are proving, as throughout the course of human history, a potent lure to bring the restless and feverish prospectors from the cities of the coast. As Prof. Gregory pointed out, all the mining has been done in the coastal belt, and there is no inland city with more than 50,000 inhabitants. It was thought that the little town of Bourke, on the Darling River, would prove to be the Chicago of Australia, but the population, numbering 2,600 in 1900, continues to dwindle.

The arid area may yet prove to be the salvation of interior Australia. Boring on the route of the proposed rail line from Perth to Adelaide in Australia has shown the presence of water 340 miles from Kalgoolie, and John Forrest is confident of the existence of a subterranean supply of water which may result in reclaiming to the arid area of the continent 300,000 acres of what has hitherto been regarded as one of the irredeemable waste places of the earth.

## Queen's Fur Collection.

Queen Mary possesses one of the most magnificent collections of furs in the world, and she is very partial to these. Included in Her Majesty's collection are magnificent sets of Russian sable which were presented to her a few years ago upon the occasion of her visit to the East. She is often chaffed by members of her family regarding her preference for the fur-tanned garments, and a short time ago she presented a sable coat to her son, Prince Albert. She would wear upon the occasion of a yachting trip in the Solent. "Well, it is not an easy matter," he replied, "but I rather imagine it will be something with fur in it." It is a strange coincidence that this partiality for fur, Her Majesty, does not care for ermine, and some time ago she suggested that the robes of peers and peeresses would be more imposing if they were trimmed with black fur. The king's coat that the Queen usually wears is a marvelous specimen of the furriers' art, and is made up of some thousands of tails, each so perfectly matched and joined that it looks like a single length of fur even when subjected to the closest scrutiny. Queen Mary's furs are all carefully stored in Marlborough House in such a manner that she can obtain any set she requires at a moment's notice.

## Bishop's Hat Trick.

Presiding the other day at an annual meeting at Basingstoke of the Diocesan House of Clerical Workers, Bishop of Winchester made an urgent appeal for funds to wipe off the remaining balance of \$150 on the building fund of the warren's house. At the close of the meeting the bishop planted his "shovel" hat down on the table with a bang, remarking, "There's my hat and there's a five pound note. But we must get rid of this debt." The hat was accordingly passed round, and produced over \$250 in cash and promises, so that the debt was cleared off with \$100 to spare. "That," said the bishop, "is doing the hat-trick."

## Eddystone Lighthouse.

The first Eddystone Lighthouse was finished in 1696 and destroyed in the dreadful storm of Nov. 27, 1733. A wooden one by Rudyard was then built by order of Parliament, which was burnt Dec. 4, 1755. Another wooden structure was burnt later, and the tower of this one giving way, a new structure was designed, the foundation stones of which were laid in 1817. The cornerstone was placed in 1861, and the first light flashed out over the waters May 15, 1862.

## Rare Patterns Found.

A remarkable find has been made by the Royal Ontario Museum. The find is in the discovery of the original pattern-books of the old and well-known textile factories. These books show all the original designs of the old looms were in their hands for producing the patterns are also set out. The books were discovered quite by accident amongst some lumber at the sale of the effects of a wealthy Manchester connoisseur who died recently.

## Games on the Reef.

The choristers of St. Paul's Cathedral, London, who live in their school, which is shut in at the back of great drapery warehouses between St. Paul's Church and Queen Victoria Street, possess no playing fields, and are obliged to enjoy their games on the school roof. By the ingenious arrangement of a specially-constructed net the boys here play cricket, football, and hockey.

## COL. DENISON, IMPERIALIST.

What the Vancouver Saturday Sunset Says About Him.

Says The Saturday Sunset of Vancouver, concerning Col. Denison's recent visit to that city.

Col. George T. Denison, Canada's foremost advocate and comprehensive Imperialist, addressed the Canadian Club yesterday. Col. Denison is the greatest sportsman, soldier and war smoke maker which militiamen, imperialism has yet produced in Canada.

His brain is the West, will nevertheless be cheerfully received in the West, mainly because it does up one's arm and it amuses the colonel.

The colonel's Imperialism includes a lecture of all the British countries of the earth, a trade solvent, navy for each, an Imperial navy, an Imperial coast guard, an Imperial police, an Imperial Parliament composed of representatives of all the countries of the Empire, of which the greatest shall be, and anything else that looks plausibly Imperial.

Nothing narrow or circumscribed about Col. Denison's Imperialism. It is so plain that everyone can find some phase of it that pleases him, and it might be said that the Imperialist who cannot find something in Col. Denison's Imperialism that suits him.

You can't help liking the colonel in spite of his fiery enthusiasm, simply because you know that he is a man who feels every word he says. You know that Col. Denison is honest, clear from his utterances, and that he is a man of polished brocade. Because of his obvious honesty in combination with his statesmanlike bearing, Col. Denison's words, like a line of holiday

colours, come straight to the heart of the hearer. When Col. Denison's clinking spurs and clanking sword come down the corridors of the War Office all the understrappers stand at attention and the heads of departments get madly busy.

So, too, when Col. Denison invades Berlin there is consternation in the Reichstag, and the Kaiser's upstairs monstrosities drop in dismay.

It's a dollar to a doughnut that the colonel's words will make a man of the number of soldiers necessary to defend that corner of the world from the northern hordes of Eskimos, the eastern rabble of Toronto police court habitués, the southern hordes of American farmers heading for the Canadian prairies and the schools of salmon in the cold waters of British Columbia.

We are glad to see the fighting, strenuous colonel, and we thoroughly enjoy his discourses. And while we may not agree with his idea that Canada's chief danger is the invasion of the north by the Empire, we nevertheless like to hear him talk.

Record Land Prices.

One of the most unaccountable bits of local history recently given regarding the worth of the Canadian West is the story of the results of the sale of school lands near Francis, Saskatchewan. Record prices were obtained for the lands, for the most part, were the farmers of the vicinity.

The speculators were outbid by the farmers, and the lands are all sold to the farmers. The lands are all sold to the farmers, and the lands are all sold to the farmers.

These lands are set aside as lands to be sold to the farmers, and the lands are all sold to the farmers.

These lands are set aside as lands to be sold to the farmers, and the lands are all sold to the farmers.

FRANK, ALBERTA, Friday, Oct. 7, 1910

**A Correction**The report which appeared in  
last Friday's issue of the Leth-  
bridge Herald which said that  
the coal mines at Coleman,  
Blairmore and Frank were only  
working half time on account of  
scarcity of orders, is not correct  
and appears to have been written  
by some member of the Amalgam-  
ated Club for the purpose of doing  
injury to this famous coal mining  
district.The article in question is as fol-  
lows: "Blairmore, Sept. 19.—The  
coal mines at Coleman, Blairmore  
and Frank are at present working  
half time, scarcity of orders being  
accounted the cause." Could a  
more fallacious statement be made?  
Could a more direct falsehood be  
concocted? Could a report that  
would be more damaging to the  
famous coal mines be published?  
And could a more malicious  
article be forced upon the public?Naturally the question arises:—  
"Who wrote that fallacious article?"  
Did the person have a defective  
mind or was he on his usual  
drunk? Was it written by some  
traveler while passing through or  
in the train? or was it written by  
some person who had been negli-  
gent with his work while in the  
employ of one of the coal companies  
and was fired and who hoped in  
this way to get revenge?To show what a fallacious  
writer to the Lethbridge paper is,  
we will give a few facts. During  
the first two weeks in September  
the International Coal & Coke Co.  
at Coleman, mined 25,285 tons of  
coal. And although this was a  
record breaker for that company,  
they were even then unable to  
supply the orders for their coal.  
The last two weeks in September  
this company, on account of scar-  
city of cars, and not "scarcity of  
orders," mined but 10,735 tons.  
Notwithstanding the immense out-  
put of coal by the International  
Coal & Coke Co., they have not yet  
been able to supply the demand  
for their product. The mines of this  
company were not idle on account  
of scarcity of orders but because of  
car shortage.The McGillivray Creek Coal &  
Coke Co. at Carleton Place (near Col-  
man), are working their mines full  
time and find that the demand for  
their coal is greater than the out-  
put.The West Canadian Collieries,  
with mines at Blairmore, Lillo and  
Bellevue, receive more orders every  
day than they can possibly fill.  
The mines at the latter place have  
been working full time. The Blair-  
more mines have never been idle  
for the want of markets for the  
coal but have been closed only  
when cars have not been obtain-  
able. The orders for the Blair-  
more coal are increasing every day  
and it would indeed be poor  
business policy if a coal company  
with such a demand for its pro-  
ducts that of the West Canadian  
Collieries were to work only half  
time when all the railway cars  
necessary were at their demand.The Canadian Coal Consolidated  
Co., at Frank, also state that the  
report saying that their mines were  
closed last week or any time re-  
cently because of the scarcity of  
orders is a direct falsehood and  
they cannot understand what  
prompted any person to make such

a damaging statement.

We have always considered the  
Lethbridge Herald to be a reliable  
newspaper and we would not for  
one moment have our readers  
think that if the editor of that  
paper had known that the matter  
referred to above was incorrect, he  
would have published the said ar-  
ticle in his paper. It was evident-  
ly written by an unreliable person,  
or one who desired to damage the  
reputation of our coal mines or a  
person who is inexperienced in  
newspaper work and who does not  
know the value of telling the truth,  
or one who has a passionate desire  
for "dirty water" and has an un-  
balanced mind.**Socialism and****Christianity**In denouncing the contention of  
Rev. Dr. Chown, general superinten-  
dent of the Canadian Methodist  
Church, Moses Baritz, the Ontario  
Socialist organizer, writes the Toron-  
to Globe this: "Would you  
permit me as the accredited or-  
ganizer for the Socialist party  
of Canada for the Province of  
Ontario to give a repudiation to the  
statement of the Rev. Dr. Chown  
that Socialism is founded upon the  
teachings of Jesus? The Socialist  
position is founded upon science,  
both sociological and economic. As  
such, it is opposed to all religions,  
which it maintains were products of  
given social conditions. With the  
establishment of a Socialist regime,  
Christianity, Judaism and all super-  
natural ideas clinging to mankind  
will be abolished. The Socialist  
party of Canada is opposed to the  
unscientific worship of Christ, Bud-  
dha, or Mahomet. We do not believe  
in the salvation of the Church. We  
oppose that idea. It is far better to  
have the people understand this now  
than let the confusion exist or let it  
be disseminated in the pulpit. So-  
cialists cannot believe in any super-  
natural God. If they do they are  
not Socialists. The pamphlets issued  
by the Socialist party of Great Brit-  
ain on "Socialism and Religion" is  
the only attitude we can take up  
The Church will find in its own  
non-teaching force. Christianity, with  
its super-naturalism, must be aban-  
doned if the workers obtain their com-  
plete emancipation. That is our  
slogan. That is our challenge. Far  
better let it be known now and so  
avoid misconception in the future.  
Socialism, a Christian cannot be a  
Socialist, and a Socialist cannot be a  
Christian or God."The Globe says: We can hardly  
believe that the organizer of the  
Socialist party of Canada speaks with  
any authority on this matter. If he  
does, and the Socialist party is a  
sincerely anti-Christian, there is need  
for vigorous action on the part of  
the Churches in the direction of combat-  
ing its progress. Many of the lead-  
ers of the Socialist movement are  
Christians in the best use of the word.  
Keir Hardie, M.P., says that he first  
learned his Socialism in the New  
Testament, where he still finds his  
chief inspiration. Behind Keir Har-  
die and Moses Baritz there is a great  
gulf. On which side of it does the  
Canadian Socialist party stand?Lothbridge Sons of England  
lodge, Pride of Alberta, were  
the happy winners of the silken  
banner awarded by the Su-  
preme Lodge for the largest  
net gain in membership during  
last year. Lethbridge S.O. E's  
are enthusiastic to the core.**A Few "Didn't's"**The "knockers" didn't succeed in  
changing the position for the new  
Blairmore railway station. No, they  
didn't. Now the good work goes onA couple were to be married at  
Frank on Saturday night last, but  
because of another girl "battling in"  
they didn't. "Battling in" don't pay.Those of us who want to see this  
town rise are relentless in our prose  
of this already heading him. We  
could trust "knockers" back in their  
own c.d.n., but as yet we didn't.Some prophesied that the advent  
of Hallet's comet some few months  
ago would be followed by earth-  
quakes, scourges, calamities, wed-  
dings and such and that this whole  
earth would disintegrate as small as  
the ideas of some unworthy citizens, but  
it didn't.**Blairmore Hotel****D. C. DRAIN, Prop.**

**Coleman Notes**Alex. McLean left on Sunday  
night for Blairmore.E. MacDonald was out of town  
on Sunday, visiting Blairmore,  
Frank, Lillo and several other  
places along The Pass.W. J. Bartlett straddled from  
Blairmore to Coleman on Tuesday  
night and reported frizzly snow in  
the higher altitude.J. B. Harmer has resigned his  
position with the Coleman Miner  
and Slays Canadian and bade fare-  
well to his fellow professionalist  
here on Saturday last. He will  
probably take up a permanent  
residence in Blairmore.The action of some in nomi-  
nating a second man for mayor to  
oppose Alex Cameron was either a  
huge joke on the man on the hill  
or a direct insult to Mr. Cameron  
who has done so much towards  
making Coleman what she is to-  
day.Many people of this place are  
very indignant over the report  
sent out to the Lethbridge Herald,  
last week, to the effect that the  
coal mines at Coleman were only  
working half time on account of  
scarcity of orders. Although the  
amount mined is about 2000 tonsa day, the demand is still greater  
than the output. It is true that  
the mines were idle about half  
time last week but it was on ac-  
count of car shortage. We hope  
that the individual who wrote that  
article will sober up before he  
attempts to write anything else  
about this part of the district.The meeting held in the Minors  
Hall on Monday night in the interest  
of the municipal election, was large-  
ly attended. On the platform were  
the following speakers, comprising  
the old and new arena, whose ad-  
dresses were given in like order: D.  
Hyslop and Alex. Cameron, for mayor;  
J. O. MacDonald, J. Clark, Tom  
Steele, H. James, W. Evans, Alex.  
Morrison and T. B. Brandon, for  
councillors. The principal text of  
the meeting was the matter of taxes,  
the levying of which did not appear  
to be in a way satisfactory to all  
classes, and the bluff and water sup-  
ply. Mr. Cameron very ably brought  
out his points in the different sub-  
jects and was repeatedly applauded  
by his numerous supporters, so that  
it was easy to see in which direction  
the vote would lean. Mr. Steele  
held the large audience spell bound  
and rapt—in fact too many rap-  
id. Among the audience of two hundred  
and fifty were one hundred and  
eighty male adherents and converts  
to the policy of the old reliables, and  
thirty male and forty female sup-  
porters of the new arena.

## WILL BUILD A LARGE RINK

Board of Trade Decide to  
Have Largest Rink  
in The Pass

HAD MEETING MONDAY

Rink Will be 150 Ft. Long  
--Blairmore Has Many  
Good Hockey Players

A meeting of the Blairmore Board of Trade was held in the union bank building on Monday evening last. The following members were present: W. A. Beebe, chairman, Archie McLeod, S. J. Sargeant, A. A. Sparks, T. Frayer, F. E. Hinds, J. Caskell-Smith, T. B. George and J. R. Bradley.

The first business to come up before the board was regarding the publication of an article on Blairmore in a book recently published by a Calgary printing company and for the publication of which the said company desired payment. But the board refused to make any payment on account of the former not fulfilling their contract.

The next item of business was that of building a skating rink for Blairmore. This was a subject of much favorable comment and all the members were anxious for Blairmore to own a large skating rink. We have several good hockey players here and all that is needed now is a good place for them to use the puck. It was moved, seconded and unanimously carried that steps be taken at once for the erection of a skating rink to be sixty feet wide and one hundred and fifty feet long. This rink will be built at the corner of Fourth avenue and State street and work on same will commence at once so as to have it completed by the time winter sets in.

It was thought advisable to have notices put up in conspicuous places along certain portions of the roads east of Blairmore compelling automobiles to use only certain roads so as to make it less dangerous for people using horses along these roads.

Three applications for membership were read and accepted.

A communication from C. L. Danbrink, who recently left for Calgary, tendering his resignation as secretary, was read and accepted and T. B. George was elected to the office of Secretary. Several other communications of minor importance were read and ordered filed.

No more business, meeting closed at 10.30 p.m.

Service will be conducted at the Presbyterian church Sunday morning at 11 o'clock. Subject: "Lot's wife." A special invitation is extended to young men.

Arthur J. Langlois, Pastor.

A large party of friends of W. J. Bartlett treated him to a well-planned-out surprise at the Enterpriser office on Tuesday night. Ye sanctum, instead of being a place for manipulating the metal that sounds the newsy note, was converted into a cabin of cooking utensils, "jelly rings" and "flying angels."

WANTED—Reliable correspondent at Frank, Bellevue, Hillcrest, Passburg, Lundbrook and Cowley. Liberal offers to right persons. Write for particulars, etc., The BLAIRMORE ENTERPRISE.

## Happenings in and Around Blair- more

J. Menard returned from France on Sunday last.

T. W. Davies was down from Colesman this week.

E. MacDonald, of the E. T. bank Coleman, spent Sunday in town.

A train of thirteen empty passenger cars went East on Monday.

G. C. Egg, representing the International Correspondence schools, was in town on Tuesday.

A. B. Hames left on Sunday last on a business trip to New Westminster and Vancouver.

Mr. and Mrs. W. C. Lyman went to Spokane on Saturday last. They returned to town on Wednesday.

W. L. Mason of Exshaw has accepted a position as book-keeper and accountant with the Rocky Mountain Cement Co.

J. W. Glenwright, the provincial manager for the Prudential Life Insurance Co., was down from Calgary this week doing business around Blairmore.

Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by dealers everywhere.

P. Burns & Co. have moved their old shop across the street opposite the old stand and will conduct their business there while the new building is being erected.

Smith and Hargreaves are putting on a big sale of genteel furnishings and have already informed the people of The Pass of the fact by the distribution of hand bills.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief. Sold by dealers everywhere.

Rev. A. J. Langlois, who arrived in town on Thursday last to take charge of Presbyterian mission at this place and Lille, delivered his first sermon to a Blairmore congregation on Sunday morning last.

The foundation for the new railway station is about completed and next week we shall see the frame rise. The "Old Soo" is beginning to feel nervous at the probability of losing her commission.

The "Passion Play" was very beautifully represented on the Mercantile Hall screen last week by the Clark Moving Picture and Vancouver Company, and a large audience attended to witness these really fine pictures.

A. Paul who has had a photographing tent erected on main street during the past two weeks, was fined the sum of \$10 on Wednesday for doing work here without a licence. He has since left for further West.

One of the best real estate deals put through in connection with Blairmore property for some time was that handled by Archie McLeod on Wednesday of this week when he sold to John S. MacEwen, of Moyie, B. C., the lot east of Union bank on Victoria street, owned by A. A. Sparks, for the sum of \$2,000. It was a cash deal.

A water works of sufficient capacity to supply a city of twenty thousand people, one of the best opera houses in the Crow's Nest Pass and a skating rink larger than any other in The Pass are amongst the many things in store for Blairmore and which will be completed in the near future.

## ARE WORKING ON WATER SYSTEM

Blairmore Water Works  
Will be Completed by  
December 1st

LOTS OF GOOD WATER

E. Morino, Sub-Contractor,  
Has Nearly 100  
Men at Work

Work on the construction of the water works for Blairmore has commenced and already men are engaged excavating, laying pipes and building the dam. This work is being started about two miles south-west of the town, at York creek from where the water supply will be had.

W. J. Budd, the successful tenderer for the installation of the Blairmore water works, has awarded to E. Morino the sub-contract for all the excavating work, laying of pipes and the building of the dam, while the Dominion Wood Pipe Company, of New Westminster, B. C., has received the sub-contract to supply all the wire-wound wooden pipes required for the said water works.

E. Morino has about sixty men employed at present but he expects to increase this number to one hundred before the week closes. A large force of men will be kept on all the time and work will be rushed so as to have the water reach town early in December.

A large shipment of wire wound wooden pipes is expected from the coast this week. Twelve inch pipes will be laid from the dam to the town, ten inch pipes will be laid along the greater part of Victoria street while the water will be carried through eight inch pipes to the several other streets and avenues.

Messrs Woods and Steele, Dominion land surveyors, of Pincher Creek are at Blairmore protecting the town's interest in the construction of the water works. Messrs Woods and Steele propose opening an office here and placing a competent man in charge so as to enable them to attend to their extensive work at other places.
